A *Monthly* CD and a *Legacy* CD are available for purchase for each operational area. Each CD contains a readme file showing data layout and general information about the index records. For the *Monthly* CD, the file for the current month is generated on or about the 15<sup>th</sup> day of the following month and is cumulative for the year. Accordingly, a file generated on July 15, 2005, will contain data for the period from January 1, 2005 through June 30, 2005. The *Legacy* CD contains all index data for prior years, back to the earliest index data residing in the database. *Legacy* CD's are prepared based on the time period specified in the CD Order Form, such as Legacy 2001 – 2005.

The files included on each CD are plain text files that can be viewed in any word processor or spreadsheet program such as *MS Excel* or *WP Quattro Pro*. The software will not be provided by the court. Based on the size of the *Legacy* CD for civil, the data may be broken down into 25 megabyte pieces.
